Greeting

Welcome to the International Student Center (ISC)

Dear students,

internationalization and intercultural relations are an integral part of our globalized world. Contacts with other cultures live through personal experiences and shared experiences. This is our task at the International Student Center (ISC). We present ourselves to you - our students - through our welcoming culture. We want to show that the university environment of Karlsruhe and Pforzheim has a lot to offer you.

Through our varied program of events, we support your good start and focus on the integration of international students. I warmly invite you to become part of our diverse, international and intercultural program. Join us - become part of this great diversity. We hope that you will feel "at home" with us and that you will also be able to share experiences from your home country. I would like to thank our project partners and everyone else involved for supporting this program and making it possible.

Stress and coping with it for student parents - an application-oriented workshop

March 18, 2025

For parents (especially in the very uncertain and fragile phase of education), everyday life with all its demands is very challenging. In our society, high performance and constant optimization are expected and you quickly run the risk of overextending yourself. This creates a desire for more serenity. In this workshop, we will learn about ancient reaction patterns of our parents' brains under stress. This enables a new perspective on the demands of everyday life. Mindfulness and its implementation in everyday life creates space for us to manage ourselves more consciously and to regulate how we deal with parental stress reactions more helpfully. With the help of small exercises, tips and meditations, the perceived stress can be significantly reduced.

When: 8 pm - 9:30 pm

Where: Online (access link will be sent before the event.)

Prerequisites: None.

Costs: None.

Number of participants: max. 15 people
